Profile Summary

Enthusiastic and dedicated **Full Stack Web Developer** passionate about crafting robust and user-friendly web applications.**Proficient in both front-end and back-end technologies**, including HTML/CSS, JavaScript, ReactJS, Node.js, Express, and MongoDB. Eager to leverage my skills and collaborate with experienced professionals to contribute effectively to innovative projects.

Technical Skills

Languages: HTML/CSS, Tailwind CSS, Java, JavaScript, and Node.js
Developer Tools: VS Code, Sublime Text 3.
Databases: MongoDB, MySQL, Firebase.
Frameworks/Libraries: jQuery, Express, Bootstrap and ReactJS.
Non-Technical Skills: Inquisitive Mind, Leadership skills, Responsibility taking, Team Work, Problem Solving.

Trainings

Coding Ninjas   **Jan 2023 – April 2024**

Full Stack Web Development

- **Backend | Frontend | Java | Data Structure**
- Proficient in Front-end Technologies like HTML, CSS, Java, JavaScript, and framework like ReactJS.
- Back-end Development Skills: Understanding of server-side languages such as Node.js, Express and Databases like MySQL and MongoDB.
- APIs and Web Services: Understanding of RESTful APIs and how to integrate them into web applications.
- Successfully Implemented several comprehensive full-stack projects during training, demonstrating proficiency in both front-end and back-end development.

Projects

React Chat App | *HTML, SCSS, ReactJS and Firebase.* | GitHub | Website URLs
- Implemented real-time messaging functionality using ReactJS and Firebase.
- Incorporated user authentication with Firebase Auth to ensure secure access.
- Implemented a seamless search feature, allowing users to effortlessly retrieve past messages and conversations.

Food Ordering App(MERN STACK) | *HTML/CSS, Bootstrap, ReactJS, NodeJS, Express and mongoDB.* | GitHub |
- Built the app with the MERN stack (MongoDB, Express, React, Node.js), delivering a user-friendly interface and smooth experience.
- Implemented backend services for user authentication, payment processing, and order management.
- Implemented features like Add to Cart, user data storage, order history tracking, and customer detail management.

Record Management System | *Javascript, Node.js, Express, MongoDB* | GitHub | Website URLs
- It is a web application empowering users to effortlessly create, update, delete, and keep the record permanently.
- Implemented a backend system for real-time data storage and retrieval, ensuring seamless user experience and data integrity.
- Implemented an intuitive inventory management system for archived records, ensuring regular updates and seamless tracking.

Education

M.H Saboo Siddik College Of Engineering, Mumbai   **2015 – 2019**
B.E in Automobile Engineering   *CGPA: 6.77*

G.N.Khalsa College, Mumbai   **2013 – 2015**
HSC(Science)   *65%*

Experience

Sealmatic India Ltd.   **Jan 2022 – Dec 2023**
Purchase Engineer   *Mumbai*
- The Purchase Engineer is vital in ensuring the timely and efficient procurement of essential components and supplies, crucial for the seamless and successful completion of projects.
- Implemented a Safety Tree System in the manufacturing unit to enhance worker's focus and motivate them for efficient manufacturing process.
- Proposed procuring a laser cutting machine to cut the assembly and fixture parts for the mechanical seal. This decision resulted in annual savings of nearly 15.8 lakh.
